We have total conflicts – perhaps they can offer another time? Or certainly you and Jane can take the meeting with Kelsey.

Subject: FW: September 19th?

As you can see, you are not available to meet with the Westfield and Cape folks on the day they are going to be here in Boston.

Jim Murphy indicates he is not available either. Should Jim reach out to tell them we can't accommodate the meeting as requested?

Thanks.

Thanks, Meghan –

Deb and Alex (and probably Sean) are scheduled with Maine DEP in Portland on the 19th so I don't think we can swing this –

Regards,
Jane

Jane,

Please see below. Is Alex available on the morning of September 19th to meet with citizens from Westfield and Cape Cod re: PFAS?

Jane Downing, Sean(?), Deb, myself and someone from the CIC group should be included.

Give me a call if you want to discuss.

Thanks.

Deb,

Haven't heard anything from Alex on the request below. Not sure we have much to offer for these folks.

I did check with Jim Murphy and he is likely not available at the requested time.

Your thoughts on whether to take the meeting?

Thanks.

Subject: September 19th?

Good Afternoon,

I hope the Summer has treated you well! Since we last met in June, it's been a rapidly developing situation for us given:

- the passage of the \$13M water bond in Westfield,

- the potential passage of section 8125 of H.R. 6157, which could close the loophole for Air National Guard sites and community reimbursement (<https://www.congress.gov/115/bills/hr6157/BILLS-115hr6157eas.pdf>), and
- the hint that the MA DEP is considering lowering the ORS-G (http://www.town.barnstable.ma.us/BoardsCommittees/HyannisWaterBoard/Agendas/2018/Agenda_8-21-18.pdf).

A group from Westfield and Cape Cod has arranged to be in Boston on September 19th for an afternoon meeting with EEA & DEP. Will any of you be in Boston and have some free time the morning of the 19th to discuss the possibility of PFAS ARARs, increased protection for the people on Cape Cod, and ways in which local communities, the state of MA, and the EPA can work together to address PFAS issues moving forward?

Thanks so very much, in advance.

Sincerely,
Kristen
